The serious illness of a brother, summoned Fred N. Chapel to Grand Blanc, Mich., Saturday.

Regular communication of Charlevoix Lodge No. 224, F. & A. M., next Tuesday evening, Nov. 15th.

N. T. Munyon and wife, of Muskegon, are here for the winter with their son, Chas. Munyon.

Geo. Gladst left yesterday on a pleasure trip to Traverse City, Grand Rapids, Cadillac, Lansing and Detroit.

Amid the wreck of matter and the crush of worlds we are consoled by a change of weather, and a fair show for getting the boots out of the ground.

Charlevoix County Pomona Grange will meet with Barnard Grange Nov. 17th. J. C. Ketcham, State Speaker will be present. Full program is being prepared.

The following party of deer shooters left for the woods Monday night. Art. Atack, Geo. Stafford, Chas. S. Bee, Bob Medill, Richard Lewis, J. H. Milford, Bert Olney, Harry Newman went along as camp chef.

Dr. J. B. Thiesen returned from Ashville, N. C. last week Wednesday, and has resumed his practice. He left Mrs. Thiesen there, very little improved in health, but still has hope that the favorable climate of that region will greatly benefit her.

There are people in Charlevoix who are interested in the whereabouts and prosperity of W. M. Campbell, the distinguished theatrical manager, late of the Majestic Theatre. His departure was so sudden that it was a distinct shock to the community.

The catches at Beaver Island indicated Saturday that trout were beginning to spawn, and Monday Mr. Stewart went over with a supply of appliances to begin the harvest, leaving a man there in charge to receive eggs. A force of men arrived Tuesday from Northville to assist in the spawning-gathering and hatchery work.

Joseph Wernick, socialist candidate for governor, spoke in Detroit lately to a group of 500. He gave a particularly intelligent talk on socialism, declaring frankly that socialism of this time would be fully, that the people must gradually be educated up to it, and that it would take years before the country had reached the point where socialism would be a success.

The bottom fell out of the whitefish market in Chicago and other markets Saturday, the wholesale price going as low as eight cents. The chief cause is that the lower lake ports are glutted with enormous catches of Lake Erie fish. The close season here begins the 20th, but spawning fishing is expected to over reach that date by two weeks, and the inland catches will surely come here.

Miss Winifred Heston, a returned medical missionary from India, is visiting friends at Bayne City, East Jordan and Charlevoix. She is a Northern Michigan girl, her mother, Mrs. Mary Heston being well known. She has written an interesting book in India, called "A Line Struck in India," Secretary White of New York said of it: "When I look it up I did not lay it down until I had finished it."

Dr. A. M. Williamson, of this city, will leave next Tuesday for Porto Rico, where he will spend the winter. The chief purpose of Dr. Williamson is to put in the winter in surgical practice with his friend Dr. Rath, formerly of Kankakee, Iowa, one of the most skillful surgeons in the west. Dr. Rath was married for several years a summer resident of Charlevoix, where he had a pleasant cottage on the shore of the harbor.

The board of supervisors of fourteen of the twenty counties comprising Western Michigan, made appropriate at their meetings held this month for the carrying on of the development work. A year ago the board in five counties made appropriations. The increase in interest among the supervisors is an effective testimonial of the work being done by the Western Michigan Development Bureau.

The Western Michigan Development Bureau is not two years old, yet it has made the region that it is advertising fairly well known in all parts of the United States. It has caused thousands of people looking for new places to locate in the west. Dr. Rath was married for several years a summer resident of Charlevoix, where he had a pleasant cottage on the shore of the harbor.

Boys Journal--Editor Willard Smith brings out the Charlevoix Sentinel in a new dress of type this week, and it looks as spry and span as it did 42 years ago when it was brand new. It may not be generally known but it is a fact that Mr. Smith is entitled to the designation of dean of the Michigan newspaper men. He has been a newspaper man in the state, and as yet there is not the least sign of dry rot.

J. C. Knox, secretary of the Hardwood Manufacturers' association, has issued a report which shows that the dealers have had a very successful year. In the report Mr. Knox will say: "Mills have produced steadily, the volume of business has been good, and the shipments have been better than the average. The sale of dry stock from lumber mills has been very active and many lake shore manufacturers there is a tendency to run down shipments before the close of the lake season. It is expected that the output this year will be about 100,000 cords less than last year."

The recent purchase of the fine Leelanau property, near the Chicago River, by H. H. Burnham, of Chicago, means much more to Charlevoix than appears at first thought. Mr. Burnham is the foremost architect of the United States, and he is deeply in love with Charlevoix. He proposes to make his summer home one of the most beautiful in Northern Michigan, and his influence and advice along the line of a more beautiful Charlevoix will be felt.

There was no game here Saturday as advertised because of the fact that East Jordan cancelled the game at the last minute. We, however, claim another victory by a 1 to 0 score, as the game was forfeited. Next Saturday the foot-ball enthusiasts will be treated to one of the best games of the season, when Potosky comes here for its return game. Come out and root for the boys. This week Wednesday the team goes to Traverse for what appears to be their hardest game. Neither team has been defeated this season.

To prove that the recent business is something more than summer excitement for Charlevoix people, we note the fact that the resort construction and repairs now constitute a lively industry for Charlevoix mechanics. Up at the old Robelin farm, at the mouth of South Arm, recently purchased by Robert Stuart, the Quaker Oats man, of Chicago, Illinois. A fine cottage and house for the custodian are being built, and the place converted into an elegant summer estate. The summer resort business in Charlevoix is a full six months' industry.

The state game warden department is making special preparations for the strict enforcement of the state game laws during the deer hunting season, which opens on November 10. There will be a large number of special deputies appointed to range the woods in the lower peninsula in particular, in order to enforce the law relative to firearms and in order to avoid trouble it is urged that all hunters carry their licenses with them while in the woods, as it will be an unnecessary bother to have to return to the camps for them. A deputy should also see to the document wherever he happens to come across the hunter. There are very plenty in the counties where they are generally found and it is expected that there will be an unusually large number of hunters in the woods this fall, and it is this fact that will make the precaution necessary on the part of the game warden department.

The Rapid Progress--Last week the Charlevoix Sentinel, edited by that veteran journalist and dean of the profession in northern Michigan, Winard A. Smith, appeared in new dress. A new dress of type has the same effect on a newspaper that Easter headgear and a new suit has on womanhood--it transforms them. Almost 43 years ago Winard Smith founded the Charlevoix Sentinel, and from that day until the present he has published the paper, and controlled its utterances, and they have never had an uncertain sound. The Sentinel is the oldest paper between Traverse City and the Straits. The Sentinel has always been a newspaper of character and it has wielded a wonderful influence for good throughout all northern Michigan. Mr. Smith has an ambition to plant the Sentinel past the half century mark, and every newspaper publisher in the state will join with the people of Charlevoix county in hoping that he may see his hopes realized.

WILL EXHIBIT

West Michigan Fruit Will Have a Credible Exhibit at Chicago.

Western Michigan is ready to meet the fruit growers of the Pacific coast at the United States Land and Irrigation exposition this fall. During the summer it was feared that, owing to the unfavorable season, the apple crop would not be such that western Michigan could make a showing to compare favorably with the efforts of the western horticulturists, but after an inspection of the western Michigan orchards it was found that there were many fancy apples in the region. Scarcely a day goes by when the orchards have not been gathered and now are in cold storage in Chicago awaiting the opening of the exposition.

The collection includes thirty-four different varieties and in the case of several of the varieties the fruit secured is the finest that ever has been seen by those who packed it. The greater part of the 42 boxes were secured in the orchards by representatives of the Western Michigan Development Bureau and were packed with the greatest possible care that each specimen might be in the best condition for display purposes. In addition to the showing of apples there will be a display of pears, grapes and other fruits, and a display of fruit in glass jars, about 100 jars of early fruits being available for this purpose. Grapes, grapes and vegetables have been forwarded to Chicago against the date of the opening of the exposition.

It is believed by those who have the matter in hand that the Michigan display this year will be a big improvement over the showing of 1908, which showed took high honors among the many displays.

THE ELECTION

About Everything Went Democratic But Michigan.

Osborn Elected By a Majority of 40,000.

Republican County Ticket Elected By Good Majorities.

Michigan went republican Tuesday by 60,000 majority, but about all the rest of the world went democratic by land and sea. New York gave Dix 50,000 majority; Ohio re-elected Harmon by 75,000; Massachusetts, Pennsylvania, New Jersey, Indiana and Iowa went democratic by majorities that were large.

The one green oasis in the desert of democracy is the fact that the National house of representatives will remain republican. Although the vote was close in the 1st and 5th districts of Michigan, a solid republican congressional delegation was elected. The democratic election of two senators and twelve representatives to the legislature.

The republicans of Charlevoix county did nobly, electing the entire ticket by routing majorities. Following is the vote and majority:

Governor--Osborn 127,112; H. M. M. 127, majority for Osborn 60,000.
Congress--Dodd 127,112; Hoad 317, majority for Dodd 864.
Senator--Scott 127,112; Washel 900, majority for Scott 365.
Representative--Pearson 129,000; Couston 82, majority for Pearson 605.
Sheriff--Robbins 1154; Thompson 712, majority for Robbins 442.
Clerk--Payton 1222; Chew 607, majority for Payton 615.

Treasurer--Latta 129,000; Gallagher 600, majority for Latta 690.
Register--Emery 1244; Hutton 569, majority for Emery 675.
Treasurer--Fish 1281; Jersey 619, majority for Fish 662.
Sergeant--Robinson, no opposition. Three small townships to hear from.

Ed Roosevelt.

Teddy did it with his big stick! The result of Tuesday's elections eliminates Theodore Roosevelt from any future political consideration.

The former president returned from Africa and Europe with a crown of glory on his brow the most popular man in the world.

Cautious of his power, now proven ephemeral, he permitted himself to be forced into the political arena in a crisis. Manifestly the country has rejected him.

Whom the Lord loveth He chasteneth. It is all characteristic of the American people. Today they worship; tomorrow they turn and rend.

In 1912--Vote or Harmon? Which? The man on the white horse has disappeared into a hazy mist!

The Sugar Beet Harvest.

The people up at the sugar factory have been waiting the frost for some time and are still nervous over beet harvest conditions. The continuous bad weather in October put back the work of lifting the crop, until now when we are beginning to have a touch of winter, better than one-third of the crop is in the ground. General manager Marting says that a week of reasonably fair weather would put them on very heavy work, while a further to get it will prove bad medicine. The beginning of the factory campaign awaits weather indications, but it was hoped that the 15th would see the machinery in operation.

The serious feature of the matter is that the crop this year is much better in yield and quality than in any previous year, and continued bad weather would be a serious matter for those farmers who fail to get their beets to the sheds, as well as to the factory itself.

Another drawback is a known by help for the beet fields. Men are needed, and strenuous efforts are being made to augment the beet force.

REGION OF PROMISE

Some Interesting Facts about D. H. Day and His Work.

In writing of a district it is a distinct advantage to know something of its boundaries. In this case the writer must go it blind. Once on a time The Traverse District, in the commonly accepted meaning of the term, comprised only Traverse county and such narrow fringe of adjoining counties as bordered upon the Traverse bays.

As time passed and it was discovered that the back country was as beautiful and gave promise of being equally fruitful, the original Traverseites permitted this designation to spread its friendly halo over the surrounding territory. As this process of assimilation is still in progress it would of course be impossible to definitely fix any of its present lines.

However, all of Leelanau county is safely within the region and it is of a man living on its western shore, near the little sketch particularly well known. D. H. Day is a lumberman, nothing unusual about that. But he is also president of the Western Michigan Development bureau which, being an organization somewhat out of the ordinary, may be presumed that its chief executive officer is possessed of some exceptional qualities.

D. H. Day has his home up at Glen Haven, which is the finest kind of a lumbering village, lying between the two great lakes and its overgrown neighbor, Lake Michigan. No railway reaches this hamlet, and, save for a rocky scattered farmstead, the territory lying between it and Traverse Bay is a bowling wilderness, with but enough accomplished towards its reclamation to foreshadow its future prosperity as an orchard land.

Outside of Leelanau and Traverse counties, where everybody knew him, and where he had accumulated by hard work and strict attention to his own business, a comfortable fortune, it is doubtful if his fame had traveled widely. Yet, after the formation of this bureau in which competing railroads and shipping interests, and a score of counties represented by men advocating divergent methods, were trying to work out a common course of action, its members turned to Day as the one man who could lead the enterprise to success.

All of which goes to prove the truth of the saying that if a man have something the people want, though he live in a wilderness they will blaze a trail to his door. In this case what was wanted was simply the brains of a shrewd, diplomatic man with a thorough knowledge of the capabilities and needs of a district somewhat larger than the average New England state; with a sufficient breadth of view to take in at a glance their differences and needs; with a practical meeting point; with a savvy to meet ingenious trouble makers and keenness to detect ingenious ones; and the ability to coax or whip them into line.

Not very much to ask in one man, and there was a big field from which to choose. Yet in spite of the fact that there were a thousand or so estimable gentlemen of proved business capacity who were ready to imitate themselves upon the altar of the general good, this unassuming little Yankee was sought out, dragged from his seclusion and given command.

He's in command yet, and Western Michigan swears by him. --Little Stick.

THE MASONIC HOME

Wright of Alma, Makes Magnificent Gift to Michigan Masons.

It is announced that Mr. Wright of Alma, has donated the sanatorium building at Alma to the grand lodge. The building has 167 guest rooms, hospital, two parlors, gymnasium, forty bath rooms etc., and is modern in every particular.

The building cost Mr. Wright \$200,000, and he offered it to the grand lodge in 1910, in return for \$50,000, but the offer was not entertained. The committee in charge of the matter will not question accept Mr. Wright's gift, and the Masonic fraternity will again have cause for its aged members.

CAPITAL PENALTY

Some Curious Methods of Executing Criminals.

MOROCCO USES THE LASH

Flagging to Death in Sulfur Gas.

There are many curious methods of inflicting capital punishment in the various countries of the old world, some of them crueler than the others.

At present, the most common method of execution is by hanging. In some countries, the condemned is first flogged and then hanged.

In some countries, the condemned is first flogged and then hanged. In some countries, the condemned is first flogged and then hanged.

LECTURE AND ENTERTAINMENT COURSE!

The Lecture and Entertainment Course which has been arranged for Charlevoix this season will prove to be one of the best and most popular which has ever been booked in this section.

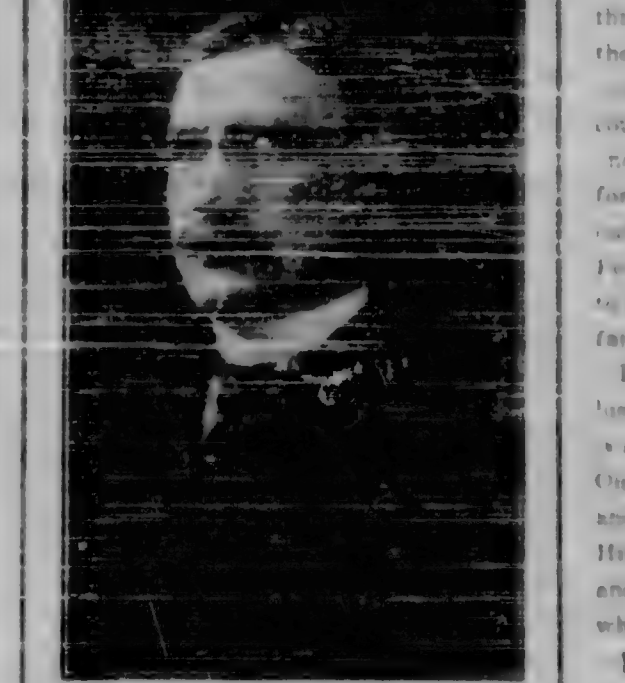

It Will Open on December 14th With a Musical and this number will be followed by two lectures and another concert.

One of the lectures will be given by Ex-Gov. Hoch, of Kansas, one of America's foremost public men. The entire course is booked through the Redpath Lyceum Bureau, the Bureau which began its long career of more than forty years with such men as John B. Gough, Henry Ward Beecher and Wendell Phillips and which has been the booking center for great attractions from that day to this.

...The Opening Number...

Hon. George D. Alden.
 A young man of 25, who has been in the United States for the last five years, and who has been in the United States for the last five years, and who has been in the United States for the last five years.

The Nellie Peck Saunders Concert Company
 A young man of 25, who has been in the United States for the last five years, and who has been in the United States for the last five years, and who has been in the United States for the last five years.

Governor Hoch.

The Governor of Kansas, Mr. Hoch, will give a lecture on the history of the state of Kansas, and will also give a lecture on the history of the state of Kansas.

Music Makers..

The Music Makers will give a concert of music, and will also give a concert of music.

The Music Makers appear at Charlevoix on April 7th.

The Music Makers will give a concert of music, and will also give a concert of music.

The lecture and entertainment course is under the management of the lecture course committee, consisting of Chairman Rev. H. A. Putnam, Secretary I. M. DeVoe, A. F. Bridge, Rev. F. M. Taylor, Raymond Bentley, R. W. Kane and A. L. Fitch.

Tickets For The Four Numbers Will Be Sold For \$1.00
 with an additional charge of ten cents for reserved seats for each entertainment.

The seats will be reserved before each entertainment.

The committee are planning on taking advantage of any unexpected open date for a fifth entertainment. In this way they hope to give the patrons of the course an especially fine entertainment for a small additional cost. Ticket holders will be given the privilege of the fifth number at twenty-five cents, or one-fourth the price of the course ticket. A personal canvas will be made for the sale of tickets. No one can afford to miss any number of the course. Two single admission tickets will cost as much as the full course ticket. Everyone is urged to buy a course ticket. The committee deserves your support, and are giving you the best course of entertainments that you have had the privilege of attending.

For any information concerning the course, inquire of Supl. I. M. DeVoe or any member of the committee.

A black and white photograph of a book's fore-edge, showing the thickness of the pages and the binding structure. The image is oriented vertically, with the spine on the left and the pages on the right. The pages appear aged and slightly discolored.

This image is a high-contrast, black and white scan, likely of a document page. It is characterized by a prominent vertical strip of light on the left side, which appears to be the edge of the paper or the binding. The rest of the image is predominantly black, with a dense, horizontal, textured pattern that resembles noise or a heavily degraded scan. There are no discernible text, figures, or other graphical elements.

tion are progressing, settlement is being started and there is a general optimism all over the country. The special conditions are assisting the mining industry, and there is no indication to make the matter radical. At the farming conference held at Regina in October, which was called by the Alberta Government, both the farmers and the Government took the same view, which was that there is no other appliances on exhibition, as it was but an ordinary season. Thousands of men are still out of the work, but the Government is not likely to be able to do anything but to help the farmers in the land that is being offered to us at present. The agricultural conditions are not so good as the other facts have been learned from the reports from Canada, and we have again seen the number of years larger over the number we have gone this year.

AN IDOL IN COURT GREAT SALT LAKE

Made to Serve the Ends of Justice
In a Case in Japan.

THE RUSE OF A WISE MAYOR.

The Japanese Official to Whom an American Man Accused of Theft Appeared. Charged a Simple Defense That Disposed the Real Guilt.

The day a criminal appeared in the presence of a Japanese official in the court of justice in Japan, the case was a simple one. The accused was a man named John Doe, who was charged with the theft of a small box containing a valuable watch. The case was heard by a Japanese official named Mr. Tanaka, who was known for his wisdom and fairness.

The accused, John Doe, was a man of about 30 years of age, with dark hair and a clean-shaven face. He was dressed in a simple suit and tie. He looked nervous as he stood before the court. The Japanese official, Mr. Tanaka, was a man of about 40 years of age, with a high forehead and a serious expression. He was dressed in a traditional Japanese kimono.

Mr. Tanaka began the proceedings by asking the accused if he had anything to say in his own defense. John Doe, looking downcast, replied that he had nothing to say. Mr. Tanaka then turned to the prosecutor and asked him to present his case. The prosecutor, a man in a dark suit, stood up and began his speech.

The prosecutor's speech was long and detailed. He presented evidence that John Doe had been seen near the place where the watch was stolen. He also presented a witness who claimed to have seen John Doe with the watch. The prosecutor concluded his speech by asking the court to find John Doe guilty.

Mr. Tanaka listened to the prosecutor's speech with a calm and steady gaze. He did not interrupt or show any signs of emotion. When the prosecutor finished, Mr. Tanaka turned back to John Doe and asked him if he had anything to say. John Doe, looking up at Mr. Tanaka, replied that he had nothing to say.

Mr. Tanaka then turned to the witness who had testified against John Doe. He asked the witness a series of questions, which the witness answered truthfully. Mr. Tanaka then turned back to John Doe and asked him if he had anything to say. John Doe, looking up at Mr. Tanaka, replied that he had nothing to say.

1. The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved.

Improved Method of Breeding Needed.

By Professor R. S. Shaw of M. A. C.

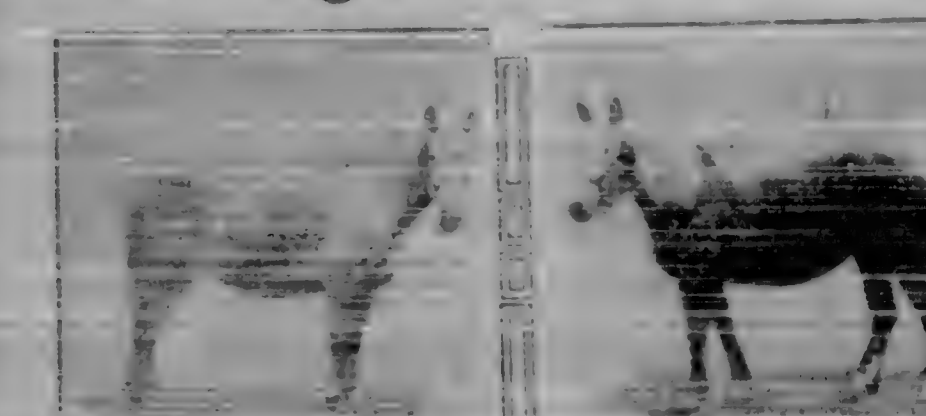

It is not only the farmer who is interested in the improvement of his stock, but also the consumer. The consumer is interested in the quality of the food he eats, and the farmer is interested in the price he receives for his product. The only way to improve the quality of the food is to improve the quality of the stock. The only way to improve the quality of the stock is to improve the method of breeding.

Pedigreed Breeding Pure and Good.

The following is a list of the names of the pigs and cows that were bred by the M. A. C. during the year 1911. The names are listed in alphabetical order.

Wintering Farm Work Horses.

Wintering Farm Work Horses.

The wintering of farm work horses is a task that requires a great deal of care and attention. The horse must be kept in good health and in good condition throughout the winter. The owner must provide the horse with a good diet and a good shelter. The horse must also be exercised regularly.

The only way to find what you want in this country is to read the ads in "The Sentinel."

Chemical Analysis of Soil Unreliable.

IT IS A WELL KNOWN FACT that the chemical analysis of soil is unreliable. The reason for this is that the chemical analysis of soil is based on the assumption that the soil is a homogeneous mass. In reality, the soil is a heterogeneous mass, and the chemical analysis of soil is therefore unreliable.

ROYAL Baking Powder Economy

The manufacturer of Royal Baking Powder has always declined to produce a cheap baking powder at the sacrifice of quality. Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Read the label on the Royal Baking Powder. It tells you all you need to know about it. It tells you that it is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Winter Eggs—How to Obtain Them.

By Professor H. L. Kemper of M. A. C.

A good egg is one that is fresh, clean, and of good quality. It is one that will keep for a long time and that will give you a good meal. The best way to get a good egg is to get it from a good source. There are many ways to get a good egg, but the best way is to get it from a good source. There are many ways to get a good egg, but the best way is to get it from a good source.

The Farmer's Driving Horse

It is a fact that the farmer's driving horse is the most important asset of the farm. It is the horse that does the heavy work, the horse that is the backbone of the farm. It is the horse that the farmer must take care of, the horse that he must feed and groom and train. It is the horse that he must love and cherish, the horse that he must treat as a friend and companion.

AN EXCELLENT INVESTMENT. The farmer's driving horse is an excellent investment. It is a horse that will last for many years, a horse that will give him many years of service. It is a horse that will be a source of pride and pleasure to him, a horse that will be a part of his life. It is a horse that he must take care of, the horse that he must feed and groom and train. It is the horse that he must love and cherish, the horse that he must treat as a friend and companion.

Remission County Convention
The Remission County Convention was held at the Charlevoix Hotel, Tuesday evening, Feb. 21, 1911. The convention was called to order by the president, Mr. J. H. Smith, at 8 o'clock. The first business was the reading of the minutes of the last convention, which were approved. The report of the executive committee was then read, and the report of the committee on the proposed amendment to the constitution was also read. The convention then adjourned until the next meeting.

Lime For Agricultural Purposes.

[illegible][illegible][illegible]

tains of the soil bacteria living in connection with the roots of legumes such as the clovers, vetches, alfalfa beans and peas are able to take nitro-

from the air and change it into a form that is available to plants. In order for these bacteria to accomplish their work, the soil must be well aerated. To insure this, the soil must be kept moist and this condition is brought about by the addition of some form of lime.

There are several forms of lime that can be used and each has its own characteristics and uses. The forms shown are ground agricultural limestone which is to be used, and also upon the price.

Ground lime is available in several forms, lump lime, quick lime and hydrated lime. The lump lime is the most durable from the raw lime rock but lime and may be used at the rate of 700 to 1,000 pounds per acre. Much of this lime is used in the manufacture of the above amount shown but is found in most cases. This form is usually obtained in large lumps and

Hydrated lime: When burned lime is mixed with water, it becomes a "hydrated lime." This form of lime is known as hydrated lime. This form of lime is much more active than the unburned lime. It is used in a number of ways, but the most common is in the form of a soil conditioner. It is used to correct soil acidity and to improve soil structure. It is also used in the form of a fertilizer. It is used to correct soil acidity and to improve soil structure. It is also used in the form of a fertilizer.

As the temperature of the air is raised by the sun, the air expands and gradually rises down to the surface. The air then cools and gradually descends back to the surface. This process is called the "convection" of air.

Under advice I took Dr. Miles' Heart Remedy and Nervine. I took about thirteen bottles, and after a few days I began to feel better. I have now gained 14 pounds.

MRS. LILLIE THOMAS,
Upper Arsenault, Clinton, N. Y.

Heart Remedy has been very successful in the treatment of heart trouble, because of its effect on the heart muscle, nerves and insensate. Even in severe cases of angina pectoris it has frequently produced life for years. It is a powerful heart strengthening and nerve tonic, and gives you better health, sleep and appetite. All ailments of the heart and nerves are cured by it.

men use mathematics they sometimes find themselves they have given up the cause of hopelessness."

"Yes, that's not the case with me," declared Mrs. Johnson contentedly. "I'm getting on splendidly, and I'm sure I shall soon be able to go back to my school."

"Would you not consider, however," said Misspence any further objection, "that I shall be glad, then, to see you in my study in French? It will be a fine thing for you to have been able to do in your other language."

Topsy's Most Difficult Writing:

After the first lesson was over, Mr. Topsy told Mary Thomas to please have some printed paper brought to him from the printer, "because of my dear little handwriting." "I have a little history of this country, Mrs. T. wrote," said, any longer, Mrs. Thomas, "and I want to finish some more."

Irving Batcheller once told a story of a farmer on the Connecticut hills.

A WOMAN'S KIDNEYS
Often Responsible for Untold Suffering

Miss August Widdowson, 3022 Park St. Milwaukee, Wis. says: "My trouble came on the almost by I was aware of it. There was a constant burning in the kidneys in the back and the ureters were sometimes so burning and scalding. The headaches and dizzy feeling that oppressed me were almost unbearable and one day I felt all the blood coming out of my head. I felt some more attention at that time and my kidneys were finally cured by the use of the *Widdowson's* medicine."

After the wedding breakfast, the bride and groom, in taking a drive in the wedding coach, read the wife was "wedded heartily and sincerely" was the first time that he ever said "I do."

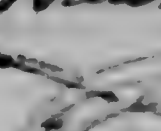

"I don't think you've earned him," teased the wife. "I'm the police captain and I can't come to him." — *High Society.*

"One husband of mine," said Mrs. Jones, "and I don't." "I don't?" "I don't," answered the husband. "I've had a letter from another and he's coming to visit us. I was going to give him a tip for his little red and yellow." "I don't," answered the wife. "I don't."

"Of course we can," said John, giving his wife a generous hint. "Just tell him that you're going to be glad to pay for her railroad ticket and make again as good as the debt." — *High Society.*

ROYAL

Baking Powder

Absolutely Pure
The Only Baking Powder Made from Royal
Grape Cream of Tartar.

Safeguards the food against alum.

Chemist tests have shown that a part of the alum from
alumina made with an alum baking powder passes into
the stomach, and that objection is referred thereby.

Head the label and make sure that your baking
powder is not made from alum.

Home Baking IS A PLEASURE.

The smell of new bread makes
a man's home seem like home
when it is **GOOD**, home made
bread and not a mere hot air cell
surrounded by dough. Try a
loaf of bread made from

**White Rose or
Iron Duke.**

If the bread is not the best you have ever had, bring
the loaf back to your grocer and get your money back.

Save \$1.25 to \$1.75 a barrel on your flour.

The Grange Attitude Toward Canadian Reciprocity.

A prominent New York State Grange Official gives reasons why the Grange should oppose the Treaty With Canada—No Canadianism in the Grange.

Answer by State Secretary
To the grange position on Canadian reciprocity was given by the State Secretary in his address to the annual convention of the New York State Grange at Saratoga Springs, N. Y., on September 10th.

"It is not the Grange which is opposed to reciprocity with Canada," he said, "but the Grange is opposed to the kind of reciprocity which would place the Canadian farmer on a par with the American farmer."

The Grange position is that reciprocity with Canada is not in the interest of the American farmer, but in the interest of the Canadian farmer.

Young Men and Women!

When the World Smiles Emulate the Example of the Bees and Hoard Your Honey.

For free for all time see that in youth you make arrangements for your Old Age.

The Equitable Life Assurance Society of the United States will contract to insure your savings. You need not put away great sums.

If you are still young and can save twenty dollars a year you can instantly create a capital of one thousand dollars.

Or any annual deposit of less than Two Hundred Dollars will yield five thousand dollars to you in cash at the end of twenty-five years—just when you'll need it.

The same sum will be paid to your wife, mother or other dependent of you die the next day or any time after you have made the first deposit.

If the contract has been in force three years or longer it will have a cash surrender value, which may be withdrawn in case of necessity.

The Equitable Life offers a variety of policies applicable to the needs of all classes of people from fifteen to sixty-five years of age.

Sooner or later you will want to know what the Company can and will do for you personally. Why not NOW!

Edible Mushrooms.
By Professor R. J. SHAW, of the U. S. G. C.

Edible mushrooms and other fungi which grow in the forest are of considerable value as food. They are especially valuable during the winter months when fresh vegetables are scarce. The mushrooms which are most commonly used are the button mushrooms, the cremini mushrooms, and the shiitake mushrooms. They are all very nutritious and can be used in a variety of ways. They can be cooked, fried, or even eaten raw. They are also very good for you and can help to keep you healthy.

LOCAL NEWS
The Charlevoix Sentinel returned home from its trip to Chicago, and is looking for new material.
All about town improvements, and new buildings are being erected.
It has become a habit with us to say that "the year" is the biggest year yet in the history of Charlevoix. This is not a statement of opinion, but a statement of fact. The year has been a year of progress, and the town has made great strides in every direction. The year has been a year of progress, and the town has made great strides in every direction.

SURPRISED THE HIGHLANDERS

And Then the Young Men Returned Their Own Country.

It was a surprise to the Highlanders when the young men returned from the war. They had been away for four years, and they had seen the world. They had seen the great cities of the East, and they had seen the great mountains of the West. They had seen the great battles of the war, and they had seen the great victories of the war. They had seen the great things that the world had to offer, and they had seen the great things that the world had to give.

LEGLESS AND ARMLESS.

Yol Kavanagh was a daring rider and a famous sportsman. He was a man of many talents, and he was a man of many virtues. He was a man of many talents, and he was a man of many virtues. He was a man of many talents, and he was a man of many virtues.

THE MIND CURE.

Don't worry, because you're not alone. You're not alone in your troubles. You're not alone in your struggles. You're not alone in your pain. You're not alone in your sorrow. You're not alone in your despair. You're not alone in your hope. You're not alone in your faith. You're not alone in your love. You're not alone in your life.

GRADUATION GIFTS

JUNE, the month of brides and graduates, permits us to offer you the opportunity to make appropriate gifts befitting such important events of a lifetime. A Healer of the Wilderness

BY HENRY WELLINGTON WACK
Copyright 1933 by H. W. Wack

There is a story of a man who had been in the wilderness for many years. He had been there since he was a boy, and he had never seen a man before. He had been there for so long that he had forgotten the name of his father, and he had forgotten the name of his mother. He had been there for so long that he had forgotten the name of his own people, and he had forgotten the name of his own country. He had been there for so long that he had forgotten the name of his own name.

He had been there for so long that he had forgotten the name of his own name. He had been there for so long that he had forgotten the name of his own name. He had been there for so long that he had forgotten the name of his own name. He had been there for so long that he had forgotten the name of his own name. He had been there for so long that he had forgotten the name of his own name.

Symposium on Subject Shows
Weight of Opinion to Be
Against a Farmer's Party

There is a strong feeling in the country that the time has come when the farmer should be heard in the halls of Congress. The question of a farmer's party is one that has been discussed for many years, and it is now being discussed again with renewed interest.

The farmer is the backbone of the nation, and it is only fair that he should have a voice in the government. The farmer's party would be a party of the people, and it would be a party that would represent the interests of the farmer.

The farmer's party would be a party that would represent the interests of the farmer. It would be a party that would represent the interests of the farmer, and it would be a party that would represent the interests of the farmer.

THE FATE OF EMPIRES

The fate of empires is a subject that has fascinated men for centuries. It is a subject that has inspired writers, artists, and philosophers. It is a subject that has led to the discovery of new worlds and the creation of new civilizations.

MAN MOST TO BE ADMIRER

Man is the most admirable of all creatures. He is the only creature that can think and reason. He is the only creature that can create and invent. He is the only creature that can love and hope.

MICHIGAN FARMERS

How to make the Michigan farm produce greater crops and better stock is the most interesting subject to you. Each week we will publish, by special arrangement articles written by men of recognized authority and experience on how to derive the greatest revenue from your farm. This feature will be written by the department heads of the

Michigan Agriculture College

which not only stands high in the estimation of the farmers of this state, but is considered the best in the country in importance of work being done and the prominence of its instructors. Below are some of the men who will contribute articles along various agricultural lines:

The Democrats in the house not only accepted the truthfulness of the service record, but also Senator, they avoided its creation by adjournment, creating a hole in their "service" record. At the same time, when the day of reckoning will come when the 1919 rolls are read, the people will have their say.

One may get along without lawyers and preachers, but the citizen is indispensable.

Do You Trust You Watch!

You've seen people look at their watch and then say some one else the time of day. It can't trust his watch. If yours is that kind, you'd better throw it away or as we say, "It's a waste of money."
 We sell trustworthy watches and guarantee them.

MICHIGAN FARMERS

How to make the Michigan farm produce greater crops and better stock is the most interesting subject to you. Each week we will publish, by special arrangement, articles written by men of recognized authority and experience on how to derive the greatest revenue from your farm. This feature will be written by the department heads of the Michigan Agriculture College.

Michigan Agriculture College

Each of these professors has made a special study of his particular field. The matter is prepared under the supervision of Director R. S. Shaw.

Engine on Farm Is Relieving Horse of Heaviest Burdens.

By H. H. MUSSELMAN
 of the Michigan Agricultural College.

The history of agriculture in Michigan is a story of progress. The farmer has always been a pioneer, and his progress has been marked by the introduction of new machinery and methods. One of the most important of these is the engine, which has relieved the horse of its heaviest burdens. The engine has made it possible for the farmer to do more work in less time, and it has made it possible for him to do work that was formerly impossible. The engine has been a great help to the farmer, and it will continue to be so for many years to come.

Co-operative Creamery Ideal.

By W. B. LIVERANCE
 of the Michigan Agricultural College.

The ideal of a co-operative creamery is one that has been long and hard fought. It is a dream that has been the goal of many farmers, and it is a dream that is now being realized. The co-operative creamery is a business that is owned and operated by the farmers themselves. It is a business that is designed to serve the interests of the farmers, and it is a business that is designed to be a success. The co-operative creamery is a business that is a part of the life of the farmer, and it is a business that is a part of the life of the community. The co-operative creamery is a business that is a part of the life of the farmer, and it is a business that is a part of the life of the community.

The time has come for you to improve your home, and you should look around and see what you need. We are interested in the looks of the Charlevoix Homes because it is the first thing that our summer visitors take notice of. To make your home look nice you have got to have first-class material and have the work done by experienced workmen. Remedies.—The most successful course would be to have the manure be very extensively used around the plants.

Culture.—In the autumn after the plants have been cut down, the old vines should be removed from the vines dug up and the soil after has cultivated large and

deep. This work can usually be done during August or September at times when farm work is not pressing. The weeds which stand in the rows of vines should be pulled, probably most persistent.

Pestification. The practice just advocated is pursued on the Michigan Agricultural Experiment Station in case the weevils are not putative. It has been found that a constant weevil has to be in the ground, which causes to their destruction in the purchase of hay, straw and corn. The manure should be returned to the land.

Do You Trust Your Watch?

You've seen people look at their watch and then with a sigh say "It's time to go."

It can't trust his watch.

If yours is that kind, you'd better throw it away or let it repair it.

If you're going to buy a new watch, be sure that you get a trustworthy watch, one that you can catch the train by, or keep as an investment.

We sell trustworthy watches and guarantee them.

FLORENCE Heating Stove.

The Problem Solved!

By the use of a FLORENCE Heating Stove soft coal is made better and cheaper than hard coal.

In the ordinary coal stove 1-1/2 the value of the coal is wasted in smoke and gases which go out the chimney and are not consumed. The FLORENCE will burn this smoke and gas which is wasted in the ordinary stove, and will nearly pay for itself the first year in the fuel saved.

Every sale means a satisfied customer. We guarantee the Florence will please you.

SPEED OF A SHOT

Finding the Velocity of a Missile a Simple Matter.

MEASURED BY A PAPER DRUM.

The Whirling Cylinder Registers the Projectile's Flight with Minute Accuracy. At Any Desired Distance Wing Guns and Shot Can Be Measured.

It is a simple matter to find the velocity of a projectile, whether it be a bullet or a shell, by using a simple device known as a "paper drum." This device is a cylinder of paper, which is whirled around at a known rate of speed. A projectile is fired at the cylinder, and the point where it strikes is marked. The distance from the gun to the cylinder is known, and the time it takes for the projectile to travel this distance is calculated. The velocity of the projectile is then determined by dividing the distance by the time.

Mitchell

Two New Additions to the MITCHELL FAMILY

Birth of the Mitchell 5-passenger Six at \$1,750 and the Mitchell 2-passenger smart gentleman's roadster at \$950.

And the parents doing remarkably well.

Time is narrowing down for a SURVIVAL OF THE FITTEST in the automobile business. The cheaply built car and the "stock car" are on the toboggan. Hysterical buying is no more. The public is vociferous in its demand for the HIGH-CLASS, LOW-COST CAR, hence THE MITCHELL STAR IS STILL IN THE ASCENDENCY.

We've added two handsome and robust "babies" to the Mitchell line, and are now equipped to show the American public that hogish profits constitute a commercial crime, and that any concern that is SOUND IN THE POCKET and SOUND IN THE HEAD can live on a reasonable merchandising margin and still keep on improving.

Two New Mitchell Babies: The Mitchell Five-Passenger Six-Cylinder \$1,750

The Mitchell Two-Passenger Smart Gentleman's Roadster at \$950

These cars are real automobiles, not skinny road pests. They've got the real Mitchell blood in them. They are the work of a factory that has never experimented at public expense, and sells its goods on merit instead of bunk.

The new 5-passenger Six at \$1,750 is NO EXPERIMENT. We've been building Sixes for years and we know how. We are pioneers in the making of the moderate-priced Six, the only concern in the world that ever put a Big Six on the market for as little money as \$2,500. The Light Six is a little brother of the Big Six and it's got all the Mitchell blood and breeding. Take your \$1,750 elsewhere and what do you get for it? An ordinary, cheap run-of-the-mill car, with no more power and no more brains, or a stock car that's thrown together by people who haven't had a finger in the making of one solitary part of it.

This car is going to destroy public faith in list prices and we are tempted to death that we are the ones to force the show-down. We will never be able to make as many of these cars as the public will demand. We know that now.

The two-passenger roadster is a revelation. It has full 25 horse power and 100 inch wheel base. It is a full grown automobile. It is full of style, rugged, dapper, dainty, yet muscled like a Hercules, and built for Service, not to compete with the cheap runabouts that have made millions for repair men. So that now the Mitchell line reads like this:

Mitchell 2-passenger gentleman's 25 h. p. roadster at \$ 950

Mitchell 4-passenger "30" touring car, at 1,150

Mitchell 5-passenger "30" touring car, at 1,350

Mitchell 5-passenger light six-cylinder 40 h. p. touring car, at 1,750

Mitchell 7-passenger big cylinder 50 h. p. touring car, at 2,250

Prices F. O. B. Racine

Not a high-priced car in the lot. Every one within the range of reason. All built easily, solidly and stylishly. Show us a line of cars at any price, we don't care how high, that is any better than this one. YOU CAN'T DO IT TO SAVE YOUR SOUL.

Every one of these cars is built of the finest material that this world has ever produced. One maker of automobiles considers it good advertising to say that his car is built of chrome nickel steel. It makes us laugh. We use it as a MATTER OF COURSE. We know there is nothing else that will do quite as well, and we're crazy over it. The maker who doesn't use it is SKINNING HIS CAR OR PRODUCING A NINE-SPOT. We maintain extensive laboratories for the analysis of materials and we DON'T TAKE ANYBODY'S SAY-SO.

Mitchell cars are equipped with top, Splittorf dual ignition, five lamps, generator, horn, jack and tools. Extra demountable rim with the Light Six. All cars equipped with fore doors, and designed to prevent excess heat from those occupying front seat. No top on the \$950 roadster.

Is that all? No that isn't all. The justly celebrated MITCHELL SERVICE comes in right here. It's the biggest thing that has ever been done in the automobile business. It means that the parent house of Mitchell's keeps its tools with every Mitchell owner. We furnish a car part free for every part that proves defective, and we mean you to know that no repair man ever built any homes on what he made out of Mitchell cars.

Ready one of three brands, is equipped with "Tru-Tite" tires, extra running gear, and more. We mean you to know that no repair man ever built any homes on what he made out of Mitchell cars.

Now, you've got our promise. If this advertisement strikes you favorably, ask for detailed information and plant book. Will give you books that are on the square.

The car you ought to have-at the price you ought to pay.

"Silent as the foot of time."

ALL PRICES F. O. B. RACINE, WIS. We want agents in every town, will pay liberal commissions. WRITE FOR PARTICULARS.

A dark, grainy, black and white photograph of a landscape. The image is mostly black with some horizontal streaks and a bright, hazy horizon line near the top. There are some faint, indistinct shapes that could be trees or structures, but they are not clearly visible due to the low light and high contrast.

A dark, high-contrast, black and white photograph showing a close-up of a textured surface, possibly a wall or a piece of fabric, with a bright, rectangular light source visible in the upper left corner. The image is heavily shadowed, with the light source creating a stark contrast against the dark, textured background. The texture appears rough and uneven, with various shades of gray and black. The overall composition is abstract and moody, focusing on light and shadow.

FLORENCE Heating Stove.

The Problem Solved!

By the use of a FLORENCE Heating Stove soft coal is made better and cheaper than hard coal.

In the ordinary coal stove 1-1/2 the value of the coal is wasted in smoke and gases which go out the chimney and are not consumed.

The FLORENCE will burn this smoke and gas which is wasted in the ordinary stove, and will nearly pay for itself the first year in the fuel saved.

Every safe means a satisfied customer.

We guarantee the Florence will please you

POSTUM

is a pure food-drink made of the field grains, with a pleasing flavour not unlike high grade Java.

A Big Package

About 1 1/2 lbs. Costs 25 cts.

At Grocers

Economy to one's purse is not the main reason for using Postum.

It is absolutely free from any harmful substance, such as "caffeine" (the drug in coffee), to which so many of the nervousness, biliousness and indigestion of today are due.

Thousands of former coffee drinkers now use Postum because they know from experience the harm that coffee drinking causes.

Bolt it according to directions (that's easy) and it will become clear to you why—

The Children are eating more bread. The last sack only lasted two weeks.

Now, are you sure that last sack made as much bread as some others?

In a barrel of WHITE ROSE there are twenty loaves of bread, more than in some other Flours.

This is because of its blend and grinding. Try a sack at our expense.

THE PUBLIC LIBRARY

Valuable Contributions to Collections of Volumes the First Year More Than Double

One of the most valued and successful institutions that have come to the Charlevoix County is the Public Library. It was organized in 1881, and since that time it has grown to be one of the most valuable institutions in the county. The following list shows the progress of the library since its organization.

"The Public Library," edited by William H. Brown, is a valuable publication. It contains a list of the books in the library, and also a list of the books that have been added since the last issue. It is a valuable publication for all who are interested in the library.

The Public Library is a valuable institution. It is a place where all can find books to read. It is a place where all can find books to read. It is a place where all can find books to read.

ECHO OF CIVIL WAR

Swanson's Bill to Reopen Southern Officers.

"BLOODY SHIRT" DAYS OVER.

Measure—Make Charges of Cruelty Against Federal General That Would Have Ruined Him in Congress.

By GEORGE CLINTON.

Washington—Occasionally in the course of the war between the states, the Southern States were in the habit of making charges of cruelty against Federal officers. One of the most notable of these was the charge of cruelty against General Sherman, which was made in the Southern States in the year 1864. This charge was made in the Southern States in the year 1864, and it was made in the Southern States in the year 1864.

LOCAL OPTION RALLY!

OPERA HOUSE, SUNDAY, MARCH 10, 1912.
AT 3:00 P. M.

A. L. Coulter, R. W. Kane and others will discuss the question of Local Option with reference to its effect upon the rate of taxation by the record. Its effect upon industrial growth of cities and villages. Its effect upon the laboring men. Its effect upon crimes and misdemeanors. Its effect upon the young men.

We have lived without saloons three years, now it is up to us to look over the record, without prejudice and determine the effect.

Come out and hear and take part.

The national battle was won by the Union army, and the British evacuated the city on June 14, 1877. But Jefferson Davis, the leader of the Confederate army, was not captured. He fled to the United States and lived in England for the rest of his life. He was pardoned by the Reconstruction Administration in 1868, but he never returned to the United States. He died in 1889 in England.

The cartoon is a political caricature of Jefferson Davis, the former President of the Confederate States of America. Davis is depicted as a man in a top hat and a military-style jacket, standing on a pedestal. He is holding a sword in his right hand and a scroll in his left. The pedestal is inscribed with the name 'VIRGIL' and the letters 'M.A.'. Above Davis is a large, ornate crest featuring a bird with spread wings, a shield with a cross, and a banner that reads 'CONFEDERATE STATES OF AMERICA'. The background shows a cityscape with a large building and a flagpole flying a flag. The cartoon is signed 'J. B. STEBBINS' in the bottom right corner.

There were times when a few members of the Immigration and Naturalization Service would come to the Federal Penitentiary to see the family, but the death of the wife, Mrs. GILMAN and children were reported in their home last fall when an advertisement was placed there, telling Mrs. GILMAN and recently released GILMAN, that the Atlantic City newspaper had made the entire story true.

the wall of the Knox county jail, where Deputy Sheriff Ed. Wadsworth is keeping him. The two men were captured here and were taken to the jail. Wadsworth has one broken foot and is injured. He says, "Unless he had help from the officers, he could not have escaped. The officers are unable to account for him getting away from the jail as he was taken to the jail by the officers. They don't deny his insanity, but he is bitter towards the officers who arrested him."

"Leaky Picture Tells a Story"

Backache is enough cause to suspect the kidneys. The kidneys are in the small of the back. Congested kidneys swell and throb. The back naturally aches. It hurts to bend or stoop or to sit down.

Kidney trouble may come on all unnoticed. A cold, a chill, a fever, a strain or irregular habits may start it. While sick kidneys can be cured in the beginning, it is a serious matter when dropsy, gravel or Bright's disease sets in.

Dr. J. B. Williams' Pink Pills have made a reputation as the cure of backache, and kidney and bladder ills. The best proof is the testimony of the users. Here are two typical testimonials. Thirty thousand others are being published in the newspapers. A postage stamp will bring you reports of cases nearer home.

TAFT IS CERTAIN OF NOMINATION

Only Thing in Doubt Is Size of His Vote at Chicago

MAY BREAK 1908 RECORD

Washington, D.C., April 12.—The Taft campaign is now in its most critical stage. The Republican Party is confident that Taft will be nominated at the Chicago convention. The only question in doubt is the size of his vote. Taft's record as president is being closely scrutinized by the opposition. However, his supporters believe that his achievements will outweigh his shortcomings. The campaign is expected to be a close one, with Taft having a strong chance of winning.

1912

revelation and reform on a progressive basis. Taft's administration has been marked by a series of reforms, including the establishment of the Federal Reserve System and the creation of the United States Forest Service. His supporters believe that these reforms have laid a solid foundation for the future of the country. They also point to his record as a fair and impartial administrator of the government.

It was only in the summer of 1907 that Taft was elected president. Since then, he has been faced with many challenges, including a severe economic depression and a series of natural disasters. Despite these difficulties, Taft has remained steadfast in his commitment to the principles of conservatism and reform. His supporters believe that his leadership has been instrumental in guiding the country through these difficult times.

LIFE IN ANCIENT ROME.

When the water came from the aqueducts, the Romans had a great deal of trouble to get it to their houses. The aqueducts were built on high pillars, and the water flowed down to the houses by a series of steps. The Romans had a great deal of trouble to get the water to their houses.

SEED CORN

The timely warning to farmers by the Agricultural Department in Washington that very little Corn throughout the Northern Corn belt is fit for seed purposes has been the theme in many instances of saving the farmers of the state hundreds of thousands of dollars.

Farmers have been testing their Corn that they selected for their own planting only to find out that it will not grow.

It is only such Corn that has been dried, dried or stored where it was not subject to zero weather that is really fit for seed purposes.

We are very fortunate in having some good Seed Corn to offer, and more especially such Corn that is suitable to our climate.

The supply, however, is limited and we advise farmers to secure their Corn now, while they have the chance to get it.

Ask for samples and prices mailed free.

The Right Way to Cultivate Corn

By H. H. MULLERMAN, Michigan Agricultural College

A corn crop is a very important one to the farmer. It is the main source of food for the family, and it is the main source of income for the farmer. It is a crop that requires a great deal of care and attention, and it is a crop that requires a great deal of knowledge and experience.

PINE POINT

One Hundred Choicest Water Front and Suburban Lots
Pine Point

owned by the North Charlevoix Land Company, is the wooded tract of land formerly known as "Boy City." From a beautiful water front on Pine Lake it extends back and the Charlevoix -- Petoskey road runs through the north part of Pine Point.

Pine Point

is a water front addition to Charlevoix on the north shore of Pine Lake. It is within easy walking distance of the city and directly across the Bay from the Charlevoix Inn. Lake Michigan gives Charlevoix its delightful temperature but it's waters are too rough for pleasure crafts. Pine Lake has always been the play water of Charlevoix. Pine Point rises from a most delightful bathing beach in natural wooded terraces, to dense types-woodland, along the Charlevoix Petoskey road. From this road Central Avenue winds through the wooded forests down the terraces, and terminates at the lake shore drive at Pine Point. The lots were laid out by one of the best landscape gardeners in America, and each lot is a picturesque masterpiece.

and home site. These lots are on the market at popular prices and during the auction will be sold in the highest bidder. The average tourist can own a lot and a bungalow for what he usually spends a season in Charlevoix. The value of these lots will advance more rapidly than any land in Charlevoix.

Watch for Program of Fourth of July Celebration at Pine Point starting at 10 a. m.

750,000 The number of tickets sold by the railroad and steamboat companies during the last season to Charlevoix and the vicinity of North Michigan was seven hundred and fifty thousand. If these figures were not based on the actual reports from these companies one would be inclined to doubt them. However, it is a fact that over three quarters of a million people visited Charlevoix and vicinity during last season. A city so well advertised must have a good future. More tourists, here come to Charlevoix each year. Those who have been here continue to come. It is not uncommon to hear well traveled tourists say, "Charlevoix is the most beautiful summer resort in America." No other resort is so well patronized or has so long a season. It takes years to establish a place so permanently in the minds of the people that they will return to it from year to year. Charlevoix became known as a resort place many years ago. Not long since, Charlevoix was a small village and its greatest asset was its natural and picturesque surroundings. During the last few years it has suddenly awakened to its position. It is today one of the healthiest and fastest growing cities in Michigan. Land values from its main street to suburban lots are going forward in leaps and bounds. This is not a boom but a delayed rise in values. Values on inside property have doubled during the past year. One gentleman who bought a suburban lot for twenty-five hundred dollars last season has already sold it this year for five thousand dollars. Another gentleman,

who bought a lot for two hundred dollars last season and paid one hundred dollars, the first year's payment on the lot, has already sold this lot for thirteen hundred dollars cash. Every owner and dealer in real estate in Charlevoix is making money fast. In addition to its being a resort, having deep water-way, railway and manufacturing and shipping facilities, and being the county seat, Charlevoix's greatest reserve, its agricultural surroundings, are just beginning to be developed. Farm lands are being bought up by outsiders rapidly. The land in addition to being first class farm land, is now known to be the best fruit land in the state of Michigan. The growth and development of the surrounding country causes the early rise of values in the city.

I Could Have Bought. To the sincere investor there is no phrase so disheartening as this—I could have bought. To see a lot which could have been bought last year for two hundred and fifty dollars, rise in one year to five hundred dollars and again the next year doubled to one thousand dollars is very unsatisfactory, when you do not own the lot but could have. Proportionately this will be the experience of those who do not buy lots in Pine Point early in the season. A visit to Pine Point and looking over this addition will confirm the statement in your mind.

The Buckhorn Weed

By R. J. BALDWIN of Michigan Agricultural College

Many farmers who have had the buckhorn weed in their fields for years, and who have tried to get rid of it, have failed. It is a most stubborn weed, and it is not to be feared as a pest. It is a weed which is not to be feared as a pest. It is a weed which is not to be feared as a pest. It is a weed which is not to be feared as a pest.

When it is found that watering of fields is not the best method of getting rid of the weed, it is best to use a chemical. A chemical which is not to be feared as a pest. It is a chemical which is not to be feared as a pest. It is a chemical which is not to be feared as a pest.

Make half a bushel of crushed lime with boiling water, keeping it covered. Let the mixture stand for a day, and then add a few drops of kerosene. This mixture will kill the weed. It is a mixture which is not to be feared as a pest. It is a mixture which is not to be feared as a pest. It is a mixture which is not to be feared as a pest.

Apply the mixture to the weed, and it will be killed. It is a mixture which is not to be feared as a pest. It is a mixture which is not to be feared as a pest. It is a mixture which is not to be feared as a pest.

Northern Michigan

A Boyne City man has just paid \$200 of the cost of a new house, which is the first of a new series of houses to be built in the city.

The Western Michigan (Lansing) News has secured four photographs of the city of Boyne City. These show the various phases of the city's development.

It is interesting to note that the city of Boyne City is the only one in the state which has a city hall.

Royal Baking Powder

Absolutely Pure

The Woman Makes the Home

She makes it best, by looking after the culinary department, turns her back resolutely upon unhealthful, or even suspicious, food accessories. She is economical; she knows that true economy does not consist in the use of inferior meat, flour, or baking powder. She is an earnest advocate of home made, home baked food, and has proved the truth of the statements of the experts that the best cooking in the world today is done with Royal Baking Powder.

The Cat from Carib Bagdad

by HAROLD McGRATH
Author of HEARTS AND MASKS
Illustrations by M.G. KETTER

It was a long time ago, in a far-off land, that a cat was born. His name was Carib, and he was a very special cat. He was born in a place called Bagdad, and he was the only cat in the world who could talk. He was a very clever cat, and he was very brave. He was a very special cat, and he was the only cat in the world who could talk.

One day, Carib was sitting on a roof in Bagdad, and he was looking at the sun. He was thinking about the things he had seen in his life. He was thinking about the things he had done, and he was thinking about the things he had learned. He was thinking about the things he had seen, and he was thinking about the things he had done.

Carib was a very special cat, and he was the only cat in the world who could talk. He was a very clever cat, and he was very brave. He was a very special cat, and he was the only cat in the world who could talk.

Wear a Warner's

and you will appreciate the luxury of a perfect fitting corset, giving readily to every movement of the body. Not only at first, but as long as it lasts, your corset will be the same. But a Warner's is designed to fit comfortably and to give long wear. Every bone-in fact every seam-is placed to give the wearer ease.

All the boning is Double

two thin strips in a single cover gives Warner's Corsets the suppleness so necessary, with less possibility of breaking than is possible with any single steel boning.

Then the "Interline"---the strips that hold the bones in place. The boning cannot push through or tear the fabric, or can it slip from place. The cloth itself is guaranteed and will stand the strain of constant wear.

Inside Quality---You must look deeper than the surface. It is the unseen parts that make the corset tight, and only the best is used inside as well as out in Warner's. We guarantee that every pair of Warner's Best-Proof Corsets Will Not Rust, Break or Tear.

DONS A DOZEN STYLES A DAY.

Best Medicine for Cuts.

When a dangerous hemorrhage occurs, for example, from a laceration, or from a fall, or from a burn, the proper treatment is to apply the powder, what the country people about Lowell, Druggist, of Marston, Massachusetts, says, "I have known the blood stop flowing from the most fatal wounds, and the pain is cured at a stroke, and the blood is not all that is so called." It is the same for all who are suffering with such a condition. Many of you have seen a Indian man, on the coast, who has been in the service of a famous doctor. F. J. Olin and his associates.

PAT

A woman's smiling face is the central focus of the advertisement. She is looking directly at the camera with a warm, pleasant expression. Her hair is styled in a short, wavy bob, and she is wearing a dark, possibly black, top. The background is a soft, out-of-focus light color, making the woman stand out. The word "PAT" is printed in large, bold, white capital letters across the top of the image. Below the woman's face, there is a block of text in a serif font, which appears to be a testimonial or a description of the product. The text is partially obscured by the woman's face and the "PAT" text, but it seems to be a positive endorsement. The overall tone of the advertisement is classic and elegant, typical of mid-20th-century magazine ads.

A Romance of California

Rich Men's Children

By Geraldine Bonner

The historic rush for yellow metal in '49 made millionaires of many sturdy characters that formerly knew nothing but poverty. The story this writer has woven around the children of two bonanza kings is one of strong heart interest from beginning to end.

A Story That Deals With the Conflict of Generations and the Bold Passions of the Far West.

We will publish this story in installment form as our next serial. If you are one who enjoys the gripping kind of fiction, don't miss it.

PERRY'S FLAGSHIP AGAIN ON LAKE ERIE

USS PERRY AT THE BATTLE OF LAKE ERIE

It was almost a week ago that the USS Perry, the only ship of the United States Navy on Lake Erie, was seen in the waters of the lake. The ship was seen in the waters of the lake, and it was seen in the waters of the lake. The ship was seen in the waters of the lake, and it was seen in the waters of the lake. The ship was seen in the waters of the lake, and it was seen in the waters of the lake.

SPLENDORS OF SPACE

Metaphors, similes, and other figures of speech are used to describe the vastness of space.

The Milky Way, as seen from Earth, is a vast, glowing band of light in the night sky.

The distance between stars is so great that it is difficult to comprehend.

The light from distant stars takes years to reach Earth.

The universe is so large that it is impossible to see its edges.

The study of space is a fascinating and ever-growing field.

Scientists are constantly discovering new things about the universe.

The future of space exploration is bright and full of promise.

One day, we may be able to travel to other planets.

The wonders of space are waiting to be discovered.

Let us continue to explore the mysteries of the universe.

STIRRING SIGHT ON POTOMAC

Pen Picture by *Reviews of Daily Days*
Early Wake Up Washington
July 10, 1918

Some time in June 1914, we came up from the river Potomac and went late a fort on a hill back of Alexandria, Va. There is a low range of hills along the river, and our fort overlooked the Potomac river. On this elevation a number of forts had been built, some of them being destroyed by the British in 1862. At this time there were only a few soldiers left in the fort, and the fort was being used as a storehouse for the army. The country is rolling, with here and there a deep ravine and low wooded lands, and the river of the Potomac is a beautiful sight. The hills are covered with a growth of brush, and the river is a beautiful sight. The hills are covered with a growth of brush, and the river is a beautiful sight. The truth of the old saying, "It is in the mud that the good is found," is no less well demonstrated, following the flood, than it was before. It is in the mud and debris, that it has been found that the people of the United States are not the material ones that some who advocate the transportation of merchandise by water, and the use of the canal, and wagon, or rail methods, are the ones who are. It is in the mud that the flood though there was no less flood with them, with their methods, than with the others. Author Realizes That He Missed Much of Life by Failure to Be His Natural Self

David Thomson, writing a how-to feature in *Entertainment* in the April 1968, *Magazine*, says:

"It's a great thing to wear shabby clothes and an old hat. Some of the best things I have ever known, like those apartments of the streets, have resulted from coming up to life from underneath, of being taken for less than one, rather than for more than one."

"I did not always believe in this doc-

After I passed round the rear, he said, "I am going to try to get a better view of the world I tried once but I was disappointed." I was constantly thinking of being content to pass through life a sufficiently wonderful being and not trying to get a better view of the world I tried once but I was disappointed. I was constantly thinking of being content to pass through life a sufficiently wonderful being and not trying to get a better view of the world I tried once but I was disappointed.
